PROFESSIONAL SUMMARY

Junior MERN Stack Developer with around 1 year of freelance experience building full-stack web applications. Skilled in responsive web development using React.js, Node.js, Express.js, and MongoDB. Experienced in developing REST APIs, implementing JWT authentication, and integrating cloud services like Cloudinary and Firebase while tracking code with Git and GitHub.

TECHNICAL SKILLS

Frontend Architecture: React.js, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, HTML5, CSS3

Backend & Databases: Node.js, Express.js, MongoDB, MongoDB Atlas, Mongoose, RESTful APIs

Authentication & Cloud: JWT Authentication, bcrypt, AWS (EC2, S3), Firebase, Cloudinary

Tools & Workflows: Git, GitHub, Version Control, Agile/Scrum, CRUD Operations

PROFESSIONAL EXPERIENCE

Freelance MERN Stack Developer

Jan 2025 – Present | Remote

- Developed 3+ full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication and integrated MongoDB Atlas and Cloudinary.
- Built responsive user interfaces and REST APIs.
- Fixed bugs and deployed applications using Git and GitHub.

MERN Stack Developer Intern

Codings First | 2025

- Assisted in developing MERN-based web applications and REST APIs.
- Built responsive UI components using React.js and Tailwind CSS.
- Performed debugging, testing, and database-related tasks.
- Used Git and GitHub for version control and team collaboration.

PORTFOLIO PROJECTS

Blogify - Full-Stack Blogging Platform

Technologies: MERN Stack, JWT, Cloudinary, Bootstrap

[Live Demo](#) | [GitHub Repository](#)

- Built a blogging platform with complete user accounts and full CRUD actions for articles.
- Implemented JWT-based authentication and user sessions.
- Integrated Cloudinary API for media upload and storage.

E-Commerce Application

Technologies: React.js, Node.js, Express.js, REST APIs, Tailwind CSS

[Live Demo](#) | [GitHub Repository](#)

- Designed reusable React components and managed global cart state using Context API.
- Developed backend routing with Express.js to fetch and stream product data.
- Improved responsive layouts and optimized image loading.

Authentication & Management System

Technologies: Node.js, Express.js, MongoDB Architecture

[Live Demo](#) | [GitHub Repository](#)

- Built backend APIs from scratch using Node.js and Express.js for user accounts.

- Created custom routing middleware to secure private web pages.
- Formed database schemas with clear data validation patterns.

ACADEMIC PROJECTS

Hostel Management System

Technologies: Java, OOP, Relational Databases

- Developed a desktop application using clean Model-View-Controller (MVC) design rules.
- Applied core OOP concepts like inheritance and encapsulation to make modular code.
- Built features to track room availability, student records, and monthly invoicing.

EDUCATION

The Islamia University of Bahawalpur

Expected Graduation: 2027

Bachelor of Science in Computer Science (BSCS) – Final Year Student

Relevant Coursework: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Systems, Software Engineering, Web Engineering, Computer Networks
