PORTFOLIO
ahmad-portfolio.vercel.app

SKILLS

- React.js
- Next.js
- JavaScript
- TypeScript
- Node.js
- Express.js
- MongoDB
- Mongoose
- REST APIs
- JWT Auth
- Tailwind CSS
- Firebase
- AWS EC2/S3
- Cloudinary
- Git/GitHub

STRENGTHS

- Problem Solving
- Clean Code Practices
- Quick Learner
- Team Collaboration
- Consistent Practice

LANGUAGES

- English
- Urdu

EDUCATION

The Islamia University of Bahawalpur
Bachelor of Science (BS) in Computer Science
2023 – Present
Currently in Final Year

PROFESSIONAL SUMMARY

Passionate and results-driven MERN Stack Developer with hands-on experience building scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in architecting REST APIs, secure authentication systems, responsive modern UI development, and robust cloud deployment workflows. Well-versed with AWS, Firebase, Cloudinary, Git/GitHub, and contemporary frontend architectures to optimize delivery performance.

KEY PROJECTS

Blogify MERN Application MERN Stack

- ▶ Developed a feature-rich full-stack blogging platform integrated with JSON Web Tokens (JWT) for secure authentication.
- ▶ Integrated Cloudinary API to optimize media management and perform seamless multi-format image uploads.
- ▶ Implemented an intuitive, responsive admin dashboard supporting comprehensive CRUD operations and metrics analytics.

E-Commerce Application React.js & Node.js

- ▶ Built robust, reusable React.js components alongside modular state architecture for efficient API data streaming.
- ▶ Created a responsive, modern shopping user interface tailored for optimized interaction speeds and higher conversions.
- ▶ Focused on client-side latency reductions, ensuring high-performance, layout stability, and excellent user experience.

Authentication & Management System Backend Architecture

- ▶ Architected secure backend REST APIs from scratch leveraging enterprise patterns in Node.js, Express, and MongoDB.
- ▶ Implemented industry-standard JWT / bcrypt credential hashing systems and protected gateway middleware routes.
- ▶ Developed a highly scalable user management database structure designed for fast querying and permission indexing.

Personal Animated Portfolio Website Frontend UI/UX

- ▶ Designed a modern animated web showcase using Tailwind CSS and performance-optimized micro-interactions.
- ▶ Successfully benchmarked and deployed a fully fluid, multi-device compatible live production portfolio.

KEY ACHIEVEMENTS

- ▶ Developed multiple full-stack MERN applications with responsive frontend and backend integration.
- ▶ Built secure authentication systems using JWT and bcrypt.
- ▶ Worked with AWS EC2, Cloudinary, and MongoDB Atlas for deployment and storage.
- ▶ Improved frontend responsiveness and user experience using Tailwind CSS and React.js.
- ▶ Practiced REST API development and clean backend architecture using Node.js and Express.js.
